---

### Profile Summary

Computer Engineering graduate and passionate software developer specializing in backend and web development using Python and Django. Experienced in writing clean, maintainable code, developing REST APIs, implementing user registration and authentication, performing CRUD operations and more. Seeking entry-level opportunities to contribute to real-world projects, grow, and enhance my development skills.

---

### Technical Skills

- Python
  - Django, Django REST Framework
  - SQLite, PostgreSQL, MySQL
  - Git, GitHub, Postman
  - HTML, CSS, JavaScript
- 

### Projects

#### BookNook

A book selling and exchanging marketplace built with Python and Django. Features secure registration, login, book CRUD, search, pagination, and commenting.

☞ GitHub: <https://github.com/diwashgauli/BookNook-django>

#### News Portal System

Django-based portal with user login/signup, news article management, and modular design.

☞ GitHub: [https://github.com/diwashgauli/newsportal\\_django-](https://github.com/diwashgauli/newsportal_django-)

#### Blog Platform

Blogging system with post creation, editing, categorization, and commenting. Demonstrates full CRUD and user interaction.

☞ GitHub: <https://github.com/diwashgauli/Blog-Django>

#### Student Record System

Manages student records with form-based creation, update, and retrieval using Django models and views.
